

WOMAN HURT AS TROLLEY CAR JUMPS TRACK

Second Accident Within
Few Hours on Staten
Island Curve.

A well-filled trolley car of the Brighton Heights line, bound for St. George, Staten Island, jumped the tracks on Brook street today at a sharp curve and went crashing through a high fence into a vacant lot.

One woman was seriously injured and half a dozen or more passengers cut and bruised as a result of the accident, which occurred in exactly the same spot as a similar one last night, in which several persons were hurt.

The danger spot is at the beginning of a sharp curve which carries the cars from the lamp-house into Brook street, and the company can give no explanation for the two accidents.

The car which jumped the track today was well filled and behind time, as usual. All the way from Brighton Heights it noticed the motorman keep his controller jammed over the last notch, and as the Brook street curve was reached they say he did not shove it back an inch. The car seemed to bound into the air as it left the rails and then pitched over the street and through the fence.

Mrs. Ellen Samkin, of Davis avenue, West Brighton, was badly injured, cut and was removed to the South Infirmary.

TOO MANY PRINCES HERE, SAYS COURT

One from Hoboken in Trouble
For Asking New York One
to Have a Drink.

Prince Adolph von Zell, of No. 48 Third street, Hoboken, was accused in the West Side Court this morning by the Prince and Princess de Broglie, of the Prince Cafe, No. 15 West Forty-fourth street, of entering their rooms and threatening them last night.

The Hoboken prince is a house painter and an American citizen, but carries a card with his title and the address, Wurttemberg, Germany, engraved thereon. He is an old man and wears a sweater and cap.

Prince de Broglie has taken out first papers and renounced his title for plain Robert. He told Magistrate Sweetzer that the Hoboken prince came to the cafe and sent up his card. He was told to come up, and according to the Prince, "he came into my room with his cap on and smoking a cigar. He did not even look at the Princess, but asked me to go downstairs to have a drink."

"He did not ask me," spoke up the Princess, who stood beside her husband.

"You are not complaining about that?" asked the Court.

"Of course not," laughed the Princess, "but I was afraid to let the Prince go alone. He great great uncle was shot by a woman, who claimly washed her hands after the deed, and this man had a piece of soap in his pocket. We were afraid he would kill the Prince."

The Hoboken prince said: "I was just paying a friendly visit. I thought the Prince would like to meet me. I met the Prince of Battenberg when he was here."

"There are too many of these Princes around," said Magistrate Sweetzer, "especially of the Hoboken and German variety. I'm going to send you to Sing Sing."

Reiss lived at No. 241 East Thirtieth street. The girl, who lived at No. 48 West Thirtieth street, had refused to marry him and marry their child at Eighth avenue and Thirtieth street on the night of Oct. 11. Reiss fled four miles at her own taking. He was tried before Judge O'Sullivan.

JOHNSTONE DISCUSSED AS BRITISH ENVOY.

Washington Visit of Wife of Minister to Denmark Starts New Talk of Durand's Successor.

WASHINGTON, Nov. 21.—Sir Alan Johnstone, the present Minister for Great Britain to Denmark, is being discussed in Washington as a possible successor to Sir Henry Mortimer Durand, the British Ambassador, who is soon to retire from the diplomatic service and leave the Washington post vacant. Lady Johnstone, who is the daughter of James Pinchot, of this city, is now visiting her parents in Washington and has been entertained in diplomatic circles.

European diplomats with American wives seem to be especially in favor of the Washington post at present. Both Baron Speck von Sternburg, the German Ambassador, and Mr. Jasser, the French Ambassador, have American wives.

Ex-Assault Man Kills Himself.
Peter L. Sheridan, twenty-seven years old, a bookkeeper living at No. 2873 Third avenue, committed suicide yesterday afternoon by shooting himself in the head at his home. His mother said that her son had been at Ward's Island for three and one-half years, and that his insanity was cured, he was taken home about six months ago.

WOMAN BURGLAR RUNS WHEN CAUGHT ROBBING ROOSEVELT'S NEIGHBOR

Had Climbed to Second Story Window and
Packed Up Plunder When Noise Awakened
Servant—Escaped with Man Accomplice.

OYSTER BAY, L. I., Nov. 21.—For some time past there have been numerous burglaries reported in Nassau County, and in several instances it was said that the "gangs" included a woman and two or three men, but usually the woman was the one who remained on guard and sat in the carriage or automobile while the men did the job. But early today conditions were reversed, and a woman burglarized part of the home of former Assemblyman John Weeks, a neighbor of President Roosevelt, on the Oyster Bay road, while a male companion remained on guard outside the house.

Either the woman in the house or the man on the street made so much noise that one of the servants in the house was awakened and made an investigation. She opened a window and looked out, and there on the front stoop of the house, partly hidden by one of the pillars, she saw a man. She yelled to another woman burglarized part of the house, but the man pretended not to hear her and then she screamed for help.

Instantly the burglar ran around to the rear of the house, where it is supposed he gave the alarm, and joined by the female burglar, fled from the place without taking time to carry off any of the booty they had piled up in the parlor near the front door.

Mr. Weeks and his wife and all the children, except Miss Patricia, are occupying the town house in New York, and the place here is in charge of half a dozen servants. The house is only about half a mile from the home of the President, and the burglars were not far from the White House.

Defendant John Miles, who has been working on the case, today says as far as he can discover the woman was all the time working in the house. He says he believes the woman entered the house by means of the back porch window, which was found to be open.

To get in this window she must have been "hooked" up by the man. After entering the house she descended the stairs to the parlor door, after first searching the front and back porches, but she did not escape very far. A party exit was made necessary. Then she set to work to pick up things she wanted.

A careful inspection of the grounds about the house show that the last part of the woman's and all the booty. These led toward the village, where they finally were lost because of other persons having travelled the same route.

The woman evidently lit a light in the dining-room to aid her in her search for the silverware and jewelry to carry off. It was still burning brightly when the servants went down there later on. There is no clue to the robbers.

IS VENISON GAME IF SENT FROM DEER FARM?

Novel Question Is Presented to Justice
Dowling and He Reserves
His Decision.

That the deer is a game animal nobody will dispute. Can he become a domestic animal? Can the court read between the lines of the very drastic game law of the State of New York an exception in the case of venison bred and raised and fattened for the market within a 2,000-acre inclosure?

This was the question presented to Justice Dowling in the Supreme Court today by lawyers representing Charles J. Dietrich, who keeps the deer farm, James C. Farro, as President of the American Export Company, which wants to carry the venison from the farm to the market towns, but "dissent" because of that game law, and the Empire State.

Mr. Dietrich recites that he has had for ten years a 2,000-acre forest at Millbrook, and within it has bred deer from an original purchased stock of bucks and does. He now has 70 bucks, 60 does and 20 fawns—a herd of 20 deer.

The game law forbids the killing or having of deer during certain months of the year, the purpose of the law being the preservation of this much-prized animal in the forests. The question is: Does this law apply to the venison shipped from a breeding farm? Decision was reserved.

FELL FIVE STORIES INTO ASH HEAP.

So Lucky Tony Anzelone Escaped
with a Dislocated Shoulder
and a Shaking.

His lucky angel was good to Tony Anzelone, a laborer, of No. 40 East Sixty-third street, today, when Tony fell from the roof of the new five-story building at No. 51 West Third street, where Fire Patrol No. 1 is to be housed when it is finished.

From the top of the building to the street, through which in time a brass sliding roll for the firemen is to be run, there is no hand-made three-way, however, and as Anzelone lumbered across the roof in his heavy brogans he fell into the hole and went clear through to the basement without touching anything in his flight.

The basement is floored with new concrete, but right at the bottom of the shaft there is a pile of ashes from the furnace of a hoisting engine. It was sheer good fortune that landed Tony in the pile of ashes. He printed his reverse side half a foot deep in wet ashes, and got breathing for a minute or two. But at St. Vincent's Hospital they couldn't find anything the matter with him except a dislocated shoulder and a big black bruise.

Made In Porto Rico From Porto Rican Tobacco

That's one thing that's sure about El Toro cigars—something extremely doubtful about the many so-called "Porto Rican" brands. The recent increased cost of Porto Rican leaf is responsible for the many brands of doubtful quality now being rushed on the market.

EL TORO Cigar—5 Cents

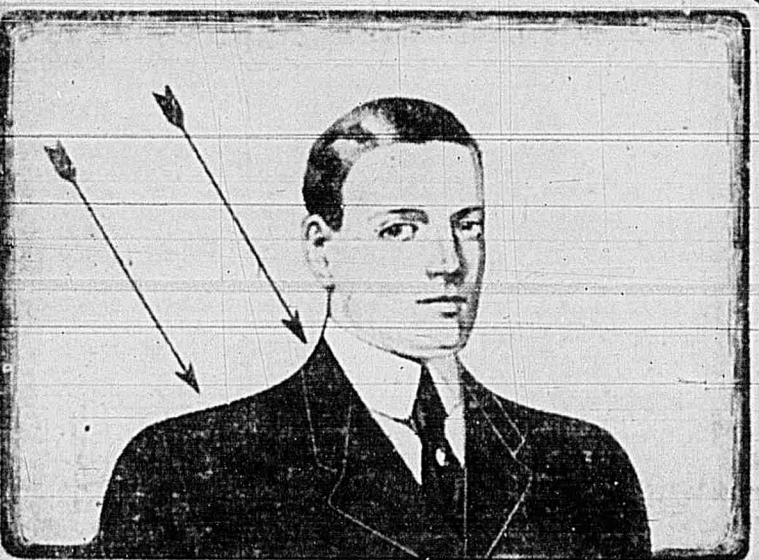

is the one cigar you can be sure is genuine Porto Rican—in name and quality.

El Toro represents the best 5-cent cigar that Porto Rico can produce. Smokers of El Toro cigars know how far superior this brand has always been to any cigar sold for 5 cents.

This year's Porto Rican tobacco crop is better than ever before and only the choicest selections are used in the El Toro. For this reason the El Toros now on the market are particularly recommended to smokers.

Every El Toro is now banded. This is the cigar that has done so much to popularize Porto Rican cigars among discriminating smokers.

Backache, "The Blues."

Both Symptoms of Organic Derangement in
Women—Thousands of Sufferers Find Relief.

How often do we hear women say, "It seems as though my back would break," or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some derangement of the organs. Nature requires assistance, and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative power, and all these peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the best judges agree that it is the most universally successful remedy for woman's ills known to medicine.

Read the convincing testimonials of Mrs. Holmes and Mrs. Cotrely.

Mrs. J. C. Holmes, of Larimore, North Dakota, writes: "I have suffered everything with backache and female trouble. I let the trouble run on until my system was in a bad way. I was unable to be about, and then I was convinced to use Lydia Pinkham's Vegetable Compound. It has made me well and strong. My backache and backache are all gone and I suffer no pain at my monthly periods, whereas before I had Lydia E. Pinkham's Vegetable Compound I suffered terribly."

Mrs. Emma Cotrely, 109 East 12th street, New York City, writes: "Dear Mrs. Pinkham:—I have suffered for months with backache and female trouble. I let the trouble run on until my system was in a bad way. I was unable to be about, and then I was convinced to use Lydia Pinkham's Vegetable Compound. It has made me well and strong. My backache and backache are all gone and I suffer no pain at my monthly periods, whereas before I had Lydia E. Pinkham's Vegetable Compound I suffered terribly."
